

# DIPA SAPTAL

Full Stack MERN Developer | React.js | JavaScript | Node.js | MongoDB | Tailwind CSS | API Integration  
+91-7028023292 | [deepasaptal442@gmail.com](mailto:deepasaptal442@gmail.com) | Pune, Maharashtra, India

## PROFESSIONAL SUMMARY

**MERN Stack Developer with 3+ years of experience** in building scalable and responsive web applications using **React.js, JavaScript (ES6+), HTML5, CSS3, Node.js, Express.js, and MongoDB**. Strong expertise in developing dynamic front-end interfaces using **Tailwind CSS, Bootstrap, and Redux**, along with efficient backend integration through **RESTful APIs**. Skilled in working with tools like **Git, GitHub, Postman, VS Code, and Axios** for streamlined development and API testing. Proficient in delivering high-quality user experiences with a focus on **responsive web design, API integration, debugging, and web performance optimization**. Adept at collaborating in agile environments to develop reliable, maintainable, and business-focused web applications.

## TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frontend Technologies:** React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS, Bootstrap, Material UI, Responsive Web Design, AJAX, jQuery
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, JWT Authentication, OAuth, API Integration
- **Databases:** MongoDB, MySQL, PostgreSQL, Firebase Firestore
- **Cloud & Deployment:** AWS (EC2, S3), Vercel, Netlify, Render, Docker, CI/CD Pipelines
- **Testing Tools:** Jest, React Testing Library, Postman, API Testing, Unit Testing, Integration Testing
- **Version Control & DevOps:** Git, GitHub, GitLab, Bitbucket, GitHub Actions
- **Architecture & Design Patterns:** MVC Architecture, Component-Based Architecture, Microservices Concepts, REST Architecture, Design Patterns, Modular Development
- **Development Methodologies:** Agile, Scrum, SDLC, Waterfall, Code Reviews
- **Other Skills:** Performance Optimization, Cross-Browser Compatibility, Responsive Design, UI/UX Principles, Web Security, Authentication & Authorization, Debugging & Troubleshooting

## PROFESSIONAL EXPERIENCE

### MERN Stack Developer

Humanus Global Private Limited

May 2023 – Present

- **Technical Skills Applied**
- Developed and delivered responsive and scalable web applications using **React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS**, ensuring high-performance and seamless user experience across devices.
- Built reusable and modular **React components**, improving code reusability, maintainability, and development efficiency across multiple projects.
- Integrated **RESTful APIs using Node.js and Express.js**, enabling secure and efficient communication between frontend and backend systems.
- Designed and implemented responsive UI layouts with **cross-browser compatibility and mobile-first design approach**.

- Developed and maintained **CRUD operations with MongoDB integration**, supporting dynamic content management and business workflows.
- Collaborated in **Agile development environment** with designers, QA engineers, and stakeholders to deliver features within deadlines.
- Improved application performance through **code optimization, lazy loading, and component-level enhancements**, resulting in faster rendering and better user experience.
- Managed version control using **Git and GitHub**, following proper branching strategy and collaborative development workflow.

## PROJECT

### **AI Voice Assistant (ChatGPT / DeepSeek-like Application)**

**Project URL:** <https://aichat-seven-xi.vercel.app>

#### **Responsibilities & Achievements**

- Developed an **AI-powered voice assistant application** using **React.js** integrated with AI APIs for intelligent conversation handling.
- Implemented **real-time voice-to-text and text-to-speech functionality** using the Web Speech API.
- Designed interactive conversational flow enabling **task automation and user query handling**.
- Ensured smooth performance with proper **error handling and API response management**.
- Built a responsive UI for seamless experience across desktop and mobile devices.

### **Megha Industries – Industrial Manufacturing Company Website**

**Project URL:** <https://megha-industries-beta.vercel.app>

#### **Responsibilities & Achievements**

- Developed a modern and responsive industrial manufacturing website using **React.js** and **Tailwind CSS** to effectively showcase products, services, and company capabilities.
- Designed and implemented product portfolio sections, service pages, and business information modules to strengthen customer engagement and digital presence.
- Built animated banners, interactive UI components, and responsive layouts to deliver an enhanced user experience across all devices.
- Developed inquiry and contact management functionalities to support customer communication and business lead generation.

## EDUCATION

### **Bachelor of Technology (B.Tech) – Computer Science & Engineering**

Shivaji University, Kolhapur
