Objective

MERN Stack Developer with 3+ years of experience in building scalable and responsive web applications using React.js, **JavaScript (ES6+)**, **HTML5**, **CSS3**, **Node.js**, **Express.js**, and **MongoDB**. Strong expertise in developing dynamic front-end interfaces using **Tailwind CSS**, **Bootstrap**, and **Redux**, along with efficient backend integration through **RESTful APIs**. Skilled in using **Git**, **GitHub**, **Postman**, **VS Code**, and **Axios** for development, version control, and API testing. Proficient in delivering high-quality user experiences with a focus on **Responsive Web Design**, **API Integration**, **Debugging**, and **Performance Optimization**. Experienced in collaborating within Agile environments to build reliable, maintainable, and business-focused **web applications**.

Skills

- Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3.
- Frontend Technologies: React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS, Bootstrap, Material UI, Responsive Web Design, AJAX, jQuery.
- Backend Technologies: Node.js, Express.js, RESTful APIs, JWT Authentication, OAuth, API Integration.
- Databases: MongoDB, MySQL, PostgreSQL, Firebase Firestore.
- Cloud & Deployment: AWS (EC2, S3), Vercel, Netlify, Render, Docker, CI/CD Pipelines
- Testing Tools: Jest, React Testing Library, Postman, API Testing, Unit Testing, Integration Testing
- Version Control & DevOps: Git, GitHub, GitLab, Bitbucket, GitHub Actions
- Architecture & Design Patterns: MVC Architecture, Component-Based Architecture, Microservices Concepts, REST Architecture, Design Patterns, Modular Development
- Development Methodologies: Agile, Scrum, SDLC, Waterfall, Code Reviews
- Other Skills: Performance Optimization, Cross-Browser Compatibility, Responsive Design, UI/UX Principles, Web Security, Authentication & Authorization, Debugging & Troubleshooting

Experience

Humanus Global Private Limited MERN Stack Developer

May- 2023 - Present

- **Technical Skills Applied** Developed and delivered responsive and scalable web applications using **React.js**, **JavaScript (ES6+)**, **HTML5**, **CSS3**, and **Tailwind CSS**, ensuring high-performance and seamless user experience across devices.
- Built reusable and modular **React components**, improving code reusability, maintainability, and development efficiency across multiple projects.
- Integrated **RESTful APIs using Node.js and Express.js**, enabling secure and efficient communication between frontend and backend systems.
- Designed and implemented responsive UI layouts with **cross-browser compatibility and mobile-first design approach**.
- Developed and maintained **CRUD operations with MongoDB integration**, supporting dynamic content management and business workflows.
- Collaborated in **Agile development environment** with designers, QA engineers, and stakeholders to deliver features within deadlines.
- Improved application performance through **code optimization, lazy loading, and component-level enhancements**, resulting in faster rendering and better user experience.
- Managed version control using **Git and GitHub**, following proper branching strategy and collaborative development workflow.

Project

NatureDaily – Dairy & Grocery Ordering Application

- Developed a **React Native mobile application** for ordering fresh dairy and grocery products.
- Implemented core features including **product listing, cart, order management, and user profiles**.
- Published the application on the **Google Play Store** with multiple product categories.
- <https://play.google.com/store/apps/details?id=com.masterzac.myapp>

AI Voice Assistant (ChatGPT / DeepSeek-like)

- Built an AI-powered voice assistant using **React.js** integrated with **Grok AI APIs**.
- Implemented **real-time voice-to-text and text-to-speech** using the **Web Speech API**.
- Enabled intelligent **conversation flow, task automation, and robust error handling**.
- Designed interactive conversational flow enabling **task automation and user query handling**.
- Ensured smooth performance with proper **error handling and API response management**.
- Built a responsive UI for seamless experience across desktop and mobile devices.

Megha Industries – Industrial Manufacturing Company Website

- Developed a **business website for Megha Industries, an industrial manufacturing company**, to showcase their **industrial machinery, equipment, and manufacturing services** using React.js and Tailwind CSS.
- Designed sections for **product portfolio, company services, and business information** to help clients explore the company's offerings.
- Implemented **animated banners, product showcase pages, and a contact inquiry form** to allow potential customers to connect with the company
- Built **animated banners, interactive UI components, and responsive layouts** to deliver an enhanced user experience across all devices.
- Developed **inquiry and contact management** functionalities to support customer communication and business lead generation.
